

Dear Partner,

As the situation regarding the spread of Coronavirus continues to evolve, the JBS Group (including Australia and New Zealand) has responded by implementing several interventions to ensure the health of our team members, the safety of our products and our continued ability to provide the highest level of uninterrupted service for our customers and consumers.

Interventions taken to date include:

- Prohibiting international and domestic travel unless business critical.
- Prohibiting attendance at conferences and events.
- Restricting access to all of our sites with a focus on business critical activities only.
- Implementing protocols to track team members returning from leave, absence or annual leave and emergency protocols for any team member displaying symptoms at work.
- Enhancing hygiene, sanitation and cleaning measures in all of our sites.
- Promoting social distancing.

Our responsibility to our team members, partners and customers will be to continue putting in place procedures, which will limit and reduce the possibility for infection to occur.

With immediate effect, and unless business critical, all partners are to suspend site visits and meetings until further notice.

We encourage the use of technology (e.g. email, teleconference, videoconference, webinar) in lieu of face-to-face meetings for conducting ongoing and day-to-day business.

Our organisation continues to monitor and take direction from the Australian and New Zealand Governments and Health Authorities. We will keep you informed of any changes related to this notification.

If you have any queries regarding this notification, please make contact with your regular JBS Group contact.

We thank you for your understanding and count on your continued support to service our business to ensure that we can effectively service our customers.

Regards,

A handwritten signature in black ink, appearing to read 'Brent Eastwood', is positioned above the printed name.
